35.1% Average Student Improvement in your schools

TOP PERFORMER

The Mathletics Advantage

Mathletics switches kids on to maths. It's engaging, supportive and targeted to the various National Curricula of the UK, from Foundation Stage to Key Stage 5.

A recent independent study of 8,000 schools has found that Mathletics students achieve results up to **9% higher in external testing**.

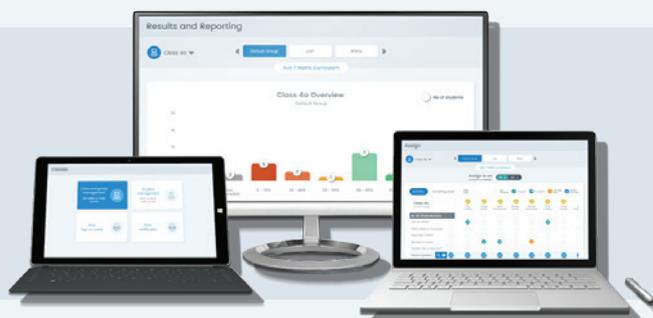

37,206
students in your schools have this Mathletics Advantage.

The Mathletics program supports the content of the curriculum while building capacity and confidence in student maths mastery.
